Seedlings Weekly News

Acorns PRIMARY SCHOOL

W/B 6th May 2019

It's been a really short but sweet week for Seedlings! We have been learning about aliens this week and the children have been using the playdough to make their own aliens. We've linked this to body parts and talked about facial features. The children liked using the playdough and making their funny aliens.

The children have been looking at the star activity and we have been working on creating a patterns and pictures with these.

We continually work with the children on identifying themselves and having a sense of their own identity. We do lots of looking a photographs and mirror work. Here is Oliver spotting himself in the mirrors and he even said 'Oliver' when asked who he could see! ☺

We all enjoyed being superheroes and meeting the superheroes and having a sit in their amazing cars!! The police even visited to ensure nothing to dramatic occurred!

Next week: we will be learning about rockets!

Reminders: please continue to send photos to lhall@acorns.lancs.sch.uk
