

This Week...

We have continued our work relating to 'Keep Calm it's all about me! We focused on foot prints and counting our toes! We have completed some labelling work relating to naming family members and have been focusing on learning the signs, Mummy, Daddy, Sister and Brother. In the focused activities in the provision we have had a jack and the beanstalk activity, as the beans that we have planted over the summer have grown into a giant beanstalk!! This has been a very popular activity and we will extend the learning relating to this activity next week. As much as we can we follow the children's interests and learning and this week they have shown interest in glasses. We had a brief trip to Specsavers on Monday whilst we were in Sainsbury's - although the excitement of the glasses got a bit too much for some of us!! ☺ Specsavers are kindly donating some resources for our use in class next week. Sports morning went well, the children really enjoyed it and were able to participate in all the different activities.

Next Week... We will be having a **rainbow** themed focused week. If you have any resources that would help with this focus we would greatly appreciate sharing them during a show and tell session. (We will be careful with things sent in from home). We will be learning about colours and have lots of sensory and messy play activities. On Tuesday we will have a coloured party with dancing and parachute games. Children are welcome to come dressed in bright/colourful clothes for the day on Tuesday.

Reminders

In EYs parents/careers are encouraged to contribute towards the children's learning journeys. A way of achieving this is to add any photos from home. If you are able to email any weekend news photos to lhall@acorns.lancs.sch.uk

This would be greatly appreciated thank you

And Finally...

We welcomed Penny in to class this week – we are really pleased that Penny has joined us in Seedlings.

Hope you all have a great weekend!!
