

The end of another busy and fun filled week. The children have continued to get to grips with their new surroundings and forming relationships with the new staff members. They have all been smiley and content on the whole and we are really impressed with how grown up they are being in coping with their new routines!

Dinner times are going extremely well. They are a little anxious going up to the hatch but with some encouragement and holding their hands for reassurance; they have done it!! This really is excellent and really helps towards their independence skills.

Billy Bear had a lovely weekend with Bethany – we saw pictures of Bethany with her cousin and shared chocolate bear cakes that she brought in for us all to share 😊

This week Stanley turned 6! We enjoyed sharing his photographs with the class and seeing the big smile on his face was wonderful. We sang happy birthday and got the birthday hat out! Thankyou for the Malteaser cake...it went down well with everyone!! 😊

The children explored letters, did some mark making work, played with a range of 2D shapes in different sensory mediums, sang lots of songs including Five little speckled frogs in numeracy which has been a hit! 😊

Sensory drama began this week for some of our pupils, along with after school club and Rugby tots! We will be accessing Rugby tots sessions on a Tuesday afternoon. This now means that children won't be having a PE session on Monday afternoons. They will now only need their kits for PE on a Thursday.

We explored our school grounds this week as part of Geography work on 'Our Environment'. We made a range of marks using paint within our Art lesson; Swirls, waves and circles.

The children were fantastic in PE this week – working hard on their concentration skills, moving like autumn trees in the wind!

This weeks special mention goes to....

Bethany for putting the correct amount of pegs to correspond with the number on her number cards in numeracy!! Well Done Bethany

Reminders-

THANKYOU to all who have contributed to our class pot. We are very grateful. It all REALLY does help towards the work we do in class and the snacks we can provide 😊

We are pleased to see so many of you having class tiles so we can have good levels of home school communication. Feel free to contact either of us on the school phone number or via our school emails. Deana – dbaker@acorns.lancs.sch.uk Sophie – smartindale@acorns.lancs.sch.uk

You may wish to email photos/videos or information about Billy Bear via email too!

Request: We have a mud kitchen for our outdoor area, so if anyone has any unwanted/old utensils, crates, plant pots to add to our bits and bobs that would be helpful 😊 THANKYOU!

Here are some pictures from our fun filled week!
