

# Pupil Premium Philosophy

Acorns philosophy for spending our Pupil Premium Grant is based on increasing engagement, enjoyment and achievement. We use our PPG to fund activities that offer additional and extensive opportunities for learning. Breadth of opportunity is key. We recognise that some pupils have a special gift or talent and provide personalised support for these pupils. The benefits of this support are far reaching. For example:- a pupil with a particular talent for coding will not only improve engagement, enjoyment and achievement but will also lead to improved well-being and robust mental health. We want our pupils to feel good about themselves so we offer enrichment in areas not usually associated with PPG spending.

PPG alone does not completely fund all our interventions. Therapies and specialist equipment are also supported by the school budget.
